LISTEN TO YOUR BABY

London 2026

Responding to Your Child's Cues for Optimal Development and Joyful Connection

Naomi Aldort

In the first and only book of its kind in the parenting and baby-care arena, internationally acclaimed parenting advice expert and bestselling author Naomi Aldort gives the power of knowing back to the parents so they can trust their own inner wisdom and foster a nurturing relationship with their children. Including The Work of Byron Katie, the compassionate care approach offers a guiding light to parents.

Today's parents are confused, not by a lack of information but too much information—too many theories by too many experts, which leaves them insecure and unsure of their abilities. Parents have become dependent on authority to know how to respond to their own baby or toddler to a frightening degree.

Listen to Your Baby is the antidote to this confusion. This revolutionary book teaches a self-inquiry that creates emotional freedom to be able to see the baby or toddler from an authentic and loving heart. To do so, readers learn to use The Work of Byron Katie in order to release stressful thoughts that abstract the ability to notice the child as he or she is and then be able to see the baby's valid needs with clarity. The result is peaceful connection, in which a child wants to act optimally of her or his own free will.

At the same time, the book also provides a wealth of commonsense solutions and ideas to consider, many of which break the common limiting and complicating narratives. *Listen to Your Baby* can create a breakthrough in building trust between parents and child and making parents see the obvious with ease.

UNBURDENING MOTHERHOOD

London 2026

A Guide to Breaking Cycles, Healing Trauma, and Becoming a Self-Led Mom

Dr. Angele Close

Practical tools to help mothers heal so they can approach motherhood with more self-trust, compassion, and joy.

When clinical psychologist and mindfulness meditation teacher Dr. Angele Close started a family, she assumed she would have the skills, maturity, and all the love to create a harmonious, joy-filled home. But past trauma and the heavy weight of cultural myths about what makes “a good mother” turned parenting into a minefield of triggers. To truly break the cycle of generational pain, she realized she still had inner work to do while also navigating the relentless demands of modern-day motherhood.

The pressure to be the perfect mom often leads to guilt, shame, and silence—creating unnecessary pain that affects both mothers and their children. But instead of ignoring her mounting triggers, Close turned them into profound opportunities for healing which she shares in *Unburdening Motherhood*.

Unburdening Motherhood explores “matrescence,” the profound and often unspoken identity transformation women undergo when they become mothers. Matrescence encapsulates how cultural expectations, internalized beliefs, and resurfaced childhood wounds collide during this transition. These can send already stressed moms spiraling into feelings of shame, unprocessed grief, and often isolation and self-blame. Drawing on the tenets of Internal Family Systems, an evidence-based model for trauma healing, Close offers mothers a hopeful path to understand their inner “parts” so they can heal and thrive in motherhood.

THE CONFIDENCE EQUATION

London 2026

Three Keys to Unleashing Self-Confidence as an Introvert

Dan Rosenfeld, PhD

The secret to unshakable confidence isn't in forcing yourself to be outgoing. It lies in the quiet power of introversion—and in deeply understanding and embracing who you truly are.

In a world that prizes extroversion, millions of introverts are left feeling overlooked and undervalued. The pressure to conform to extroverted ideals can erode their self-esteem, leaving them with a deep sense of inadequacy. As society becomes increasingly fast-paced and hypersocial, the challenge for introverts to find their place and voice has never been more urgent. In *The Confidence Equation*, Dan Rosenfeld—an acclaimed psychologist, two-time national table tennis champion, and award-winning comedian—dispels the common belief that confidence requires extroversion. Drawing on his personal journey of overcoming cerebral palsy, Dr. Rosenfeld blends poignant personal narratives with innovative psychological insights, offering a new vision where introverts flourish by embracing their authentic selves.

In this refreshing and engaging work, Dr. Rosenfeld shares his transformative blueprint for swapping self-doubt with self-belief. He reveals three vital principles that unleash the true power of introversion: strategic vulnerability, adaptive resilience, and inquisitive self-discovery. Through these principles, introverts can convert perceived weaknesses into hidden strengths, turn setbacks into opportunities for growth, and break free from limiting beliefs to realize their full potential. *The Confidence Equation* empowers introverts to reclaim their worth by unlocking the quiet strength that's always been within them.

THE SLEEPEASY SOLUTION

London 2026

The Exhausted Parent's Guide to Getting Your Child to Sleep from Birth to Age 5—
Revised Edition

Jennifer Waldburger LCSW and Jill Spivack, LMSW

Psychotherapists and sleep specialists Jennifer and Jill, the dynamic "girlfriends" all of Hollywood calls on to solve their kids' sleep problems, have perfected their sleep technique that will get any child snoozing in no time—most often in fewer than three nights. The key to their method? It addresses the emotional needs of both the parent and child (yes, how to handle the crying!)—a critical component of why most other sleep methods fail.

In this much-needed, family-friendly guide, weary parents will learn to define their individual sleep goals that work for their family's schedule and style. They'll create a customized sleep plan to ensure consistency with both parents as well as caregivers. (As an added bonus, they'll even improve the readers' relationships with their partners with the "couples-saver" section.) With comprehensive sections devoted to each stage of baby, toddler, and child development, plus solutions to special circumstances like traveling, daylight saving's time, moving to a "big kid bed" and multiples, *The Sleepeasy Solution* is a dream come true!

New and improved edition: The updated material in this go-to resource includes new information on ages birth through 3 months including how sleep shaping helps young babies sleep better at night and naptime and allows parents to start sleep training earlier, once baby is 3 months old. This revised version also provides alternatives for sleep learning, and revised resources including product recommendations, charts and graphs, organizations, apps and websites and revised schedules for babies in the first year that include very detailed "wake by" times for naps—customized to baby's age—that take the guesswork out of daytime scheduling.

IT'S NOT JUST IN YOUR HEAD

London 2026

Demystifying the Brain-Body Connection in Medical Illness

Susan B. Trachman, MD

Mind-body medicine focuses on the relationship between mental and physical health. This is the first book written for lay readers that demystifies medically unexplained symptoms, empowering readers with answers and techniques to promote healing by recognizing the brain's power to influence bodily functions.

Medically unexplained symptoms account for 40 percent of primary care visits in the United States, yet a “biological” cause is discovered only 25 percent of the time, leaving both patients and their providers frustrated.

People who experience medically unexplained symptoms often feel unheard, marginalized, or even dismissed by their medical providers. Physicians strive to help people, yet the difficulty they face trying to determine the causes of symptoms that do not easily fit into neat diagnostic boxes can lead to frustration and helplessness.

Diagnosing cases of medically unexplained symptoms can lead to an overuse of an already overburdened health system as patients are referred from one specialist to another in an attempt to find answers to their puzzling constellations of symptoms.

Dr. Susan Trachman, a specialist in psychosomatic medicine and the writer of the immensely popular *Psychology Today* blog *It's Not Just in Your Head*, has seen firsthand her patients' frustration. Her book, *It's Not Just in Your Head*, goes in depth and offers answers and workable solutions by teaching readers about different types of symptoms and how to explain them. Divided into major illness groups—including cardiac, gastrointestinal, infectious disease, and autoimmune disorders—this book will empower readers to be their own Sherlock Holmes by giving them the tools they need.

THE WILL TO LIVE

How One Family Turned Tragedy into Healing, Hope, and Purpose

John Trautwein

An unforgettable memoir about love, loss, resilience, the power of community and most importantly, hope. This inspirational work is something that anyone concerned about the mental health of a friend, loved one, or family member should read and share.

John Trautwein's life seemed perfect. An ex-Boston Red Sox player turned corporate executive, he had a loving marriage with four beautiful children. This all changed in October 2010 when his 15-year-old son Will died by suicide. John thought his life had ended, too. What he eventually discovered instead was that even in the midst of unimaginable grief, there is a way forward—through faith, family, friendship, and the healing power of helping others. With raw honesty and unwavering compassion, John shares how his darkest days revealed a new calling: to spread awareness about mental health, to break the silence around depression, and to deliver hope to those who need it most.

Drawing on his personal and professional experience, and as co-founder, with his wife Susie, of the nonprofit The Will to Live Foundation, John turns a tragedy into a positive and successful source of hope through his “Life Teammates” concept and programs. Through inspirational stories, he demonstrates our ability to improve our own will to live by delivering hope to one another. He reveals to us how to recognize the subtle and not-so-subtle signs of mental illness. His story emphasizes that love, not time, is what truly mends the heart. The Will to Live offers both inspiration and practical insight into how we can be there for each other in times of need. It is a story about courage. About community. About choosing to speak up, to reach out, to listen, and to remind each other that it's always okay to not be okay.

AN ARMSFULL OF BIRDS

A Personal Field Guide to Love, Loss, and Commitment

Cara Benson

A story of recovery, love, and loss—a memoir of healing ourselves and the natural world.

Cara Benson did not come to love easy. As a low bottom addict, she crawled through subway tunnels and partnered with an abusive man. When she came face to face with her own death, she chose life. Her journey of survival led her into recovery, to climbing mountains, and ultimately to Jon, the man with whom she cultivated a relationship that began as “second chance lovers” and slowly developed into one as lifetime partners.

Years later, Benson unexpectedly found herself in devastation as she came to terms with losing Jon to suicide. As she retreated into her grief, she also retreated into the woods of upstate New York, exploring the forests not as the avid hiker she’d become in recovery, but as a meanderer who had lost her way. Here she found more grief in her observation of the effects of climate change.

In confronting her loss, Benson came to realize that the lessons she learned from loving Jon in sickness, health, and death could be applied to her relationship with the non-human world. From squirreling away oak acorns for reforestation of a logged property to maintaining feeders for the birds Jon adored, Benson’s daily life became a sort of field guide for how to live with a deep and abiding commitment to the future of the planet despite challenging odds.

Moving through the intensely personal and kindred terrain of love, recovery, and loss, *An Armsfull of Birds* is a climate memoir that tells the story of developing deeply held commitments to ourselves, to those we love, and ultimately to the ailing natural world.

HOW SHAME RUNS THE WORLD

London 2026

Harness the Revolutionary Power of Our Most Misunderstood Emotion

Judith M. Pilla, PhD

Our most painful emotion holds a secret code for living your best life.

Nothing undermines people's health and happiness more than shame, but we don't understand how shame really works nor how powerfully it affects us. Beyond the difficult, distressing emotion we hide or try to defeat, shame is also a universal, continuous, neurologically-based communications system designed to protect your well-being, guide you to success, warn you of harm, secure your community, and potentially save your life.

In *How Shame Runs the World*, Dr. Judith Pilla upends our traditional view with groundbreaking understanding that finally gets it right about shame. Her practical, clinically-proven, jargon-free steps will teach you to decode all of shame's messages—the hurtful, damaging ones you'll finally be able to eliminate permanently as well as vital ones that better your life every day. Her steps will guide professionals, too, improving outcomes in psychotherapy, addiction treatment, medical care, and even in social policy.

Through plentiful historical, cultural, and clinical examples, you will learn to:

- Heal shame that drives many health problems, including anxiety, depression, poor self-esteem, aggression, impacts of trauma, imposter syndrome, procrastination, perfectionism, disordered eating, alcoholism, and more.
- Manage shame that is a colossal and frequent source of discord among couples, family members, friends, and coworkers.
- Recognize the growing issue of public shame as used today to control us as a whole society, reshaping our values; manipulating commerce and politics; and changing our national story.

This book's revolutionary look at our most misunderstood and underappreciated emotion cracks the code of shame's astonishing power. It will help you become your most confident, effective, authentic self—as an individual, in your relationships, and in your wider world.

PLANT-POWERED SENIORS

London 2026

Nutrition Essentials and Easy Recipes for Adults 50+

Brenda Davis, R.D., Vesanto Melina, MS, R.D., and Charlyn Black, MD, Sc.D.

A practical guide for adults 50+ that shows how a whole-food, plant-based lifestyle can support healthy aging, prevent disease, and make everyday eating simpler, more enjoyable, and deeply nourishing.

Written by award-winning authorities in the world of plant-based nutrition, *Plant-Powered Seniors* speaks directly to older adults who are curious about—or already committed to—plant-based eating. It answers the real questions seniors have about nutrition, meal planning, health, and everyday living. With a warm, peer-to-peer voice grounded in personal experience, the book offers clear, approachable guidance for navigating plant-based choices at any stage of the journey, from plant-curious beginners to long-time vegans. Each chapter opens with an easy overview and closes with key takeaways, making the information simple to absorb and apply.

Readers will learn how to build nutritionally complete meals, avoid common nutrient shortfalls, decode food labels, and distinguish whole foods from ultra-processed imposters. Practical tools include menus, food guides, supplement advice, and tailored strategies for navigating common health conditions such as diabetes, cardiovascular disease, osteoporosis, and frailty.

Beyond nutrition, the book recognizes that food is social, emotional, and deeply woven into daily life. It offers realistic strategies for cooking simply and affordably, advocating for plant-based options in shared living settings, eating out, and maintaining relationships while making dietary changes. With easy recipes, kitchen shortcuts, and encouragement to embrace change at any age, this guide empowers older adults to build a longevity-promoting lifestyle that adds years to life—and life to years.

Why Fascia Fitness Is the Key to Strength, Recovery, and Longevity

Sytera Field

Pain is personal. It can disrupt every part of how you live. But pain is not predestined.

You don't have to accept the myth that pain is an inevitable consequence of aging. You can reclaim power over your health and performance by learning how to care for your fascia system—the connective tissue throughout your body that encases and connects your muscles, organs, bones, nerves, and joints.

Long overlooked by Western medicine, fascia is now being recognized as the body's "new organ." In fact, it is the most sensory-rich organ in the body.

As Western medicine is just now waking up to the benefits of caring for your fascia, Eastern medical traditions have long understood the importance of the body's "energy lines" to physical and mental well-being—known as *nadi* lines in Ayurvedic medicine and *chi* lines in Traditional Chinese Medicine. Modern research now shows that these energy pathways closely mirror the bands of fascia that run through the human body.

In *Power Over Pain*, Sytera Field, a body mechanics and movement expert, introduces her fascia-based system for stress reduction, pain relief, and mobility: The Nadi Method. For more than 25 years, Field has helped thousands of people—from elite athletes to high-powered executives—learn how to communicate with their nervous system by working with their fascia.

Through fascia fitness, you can take back control. You can, at any age, grow stronger, recover faster, and improve performance and longevity—on your terms.

Igniting Heart-led Courage in Teens and Parents in an Anxious, Tech-centric World

Jennifer S. Miller

Imagine the power of shifting the next generation's focus from technology to humanity.

The loneliness, anxiety, and depression teens and parents feel urgently point to the need for change. We require a “humanaissance,” a rebirth of heart, human spirit and connection, learning, and wisdom. Just as the Renaissance brought fresh, innovative ideas about cultural and human potential—bringing enlightenment to dark times—our families need to meet today's uncertainty and divisiveness with a pathway toward wholeness and contribution. This pivot is only made possible with courage.

When nearly three out of four parents worry that their teen will struggle with mental health challenges, we need everyday tools and strategies to move from darkness into the light. In *Humanaissance: Igniting Heart-led Courage in Teens and Parents in an Anxious, Tech-centric World*, Jennifer S. Miller, MEd uses the science of adolescent and adult development, the heart of storytelling, and the practices of mindfulness to infuse this often intense, painful, and anxiety-ridden time of life with agency, purpose, and well-being.

You and your teen will learn to:

- Identify which of the six kinds of courage you already use and which ones you need to acquire.
- Assess your family's unique sources of strength and grow them as assets.
- Harness threat emotions like anger, anxiety, and fear as courage.
- Alter patterns from your upbringing that you want to change in your parenting.
- Alter patterns from your upbringing that you want to change in your parenting.
- Recalibrate your family's relationship with technology for efficiency, learning, well-being, connection, and innovation.
- Assert boundaries with kindness and confidence to sustain healthy relationships.
- Cultivate your teen's sense of purpose and meaning in life.

APPROVAL REMOVAL

London 2026

Finding Freedom from Fitting In

Dr. Rob Allan, Ph.D

A practical, psychology-backed guide that unlocks the hidden reason we crave approval and equips readers with the tools to finally break free from their dependence on others' approval and validation.

Approval Removal exposes a silent epidemic affecting millions: the exhausting need to be liked, validated, and accepted at the expense of authenticity and peace of mind. Research shows that more than 60 percent of adults admit their daily decisions—from small choices to major life moves—are driven by the desire for approval. Social media pressures, workplace expectations, and cultural norms only deepen this cycle, leaving many trapped in anxiety, self-doubt, and emotional burnout.

This groundbreaking guide goes beyond standard advice to “stop people-pleasing.” Instead, it reveals the psychological roots of approval-seeking and explains why the need for validation is wired into fundamental human desires for connection, safety, and worth. With clarity and compassion, the book helps readers recognize the hidden emotional patterns that keep them stuck—and shows how to replace them with healthier, self-directed motivations.

Blending cutting-edge research with practical exercises and reflective tools, *Approval Removal* gives readers a step-by-step path to dismantle approval addiction and build authentic confidence. The result is a powerful roadmap for anyone ready to stop chasing validation and start living with independence, integrity, and self-trust.

BALANCE IS BULLSH*T

by Elisha Beach

Redefine self-care to fit your real-life version of motherhood.

Motherhood is a high stake, no joke endeavor. So is the amount of pressure society piles on moms. And the push for “self-care” has become just another thing for moms to feel guilty about because, yet again, they can’t live up to the unattainable idea of motherhood or how to balance it. Stepmom of four, birth mom of three, and adoptive mom of one, Elisha Beach is here to call bullshit on this unreachable balancing act.

Beach is not a self-care guru. She’s just another mom who found her way to that moment on the motherhood journey where she realized she had prioritized everyone else’s needs while completely neglecting her own. When she realized things needed to change, she drew on her skills as a certified strategic planner and set out to rediscover what she needed to support the many roles she played, how to get her family on board, and—most importantly— how to prioritize herself.

*Balance Is Bullsh*t: The Truth About Motherhood and Self-care* shares what Beach learned about moms struggling with “doing it all” and empowers them to take back their self-nurturing. With a humorous and honest take on the real-life experiences of motherhood, Beach shares her own missteps, unrealistic expectations, and the reality checks that forced her to completely reassess her self-care practice and build a new approach that celebrates mommy wins, implements grace while embracing the chaos of motherhood, and tosses out the impractical garbage for effective strategies for moms to take care of themselves.

Elisha fancies herself Director of Domestic Operations, Chief Laundry Avoider, Executive Chef, Senior Chauffeur, and a self-care practitioner and advocate for moms. She combined her skills as a Certified Strategic Planner with her real-life motherhood experience to create a step-by-step process for everyday moms to build a realistic self-care practice. Elisha has since been on a mission to share more of her truth about motherhood and self-care so other moms feel less alone.

THIS IS YOUR BODY ON TRAUMA

by Meg Bowman, MS, CNS, LDN

This Is Your Body on Trauma is the first book to teach readers how to use nutrition to heal underlying trauma that presents in physical symptoms. It features a unique do-it-yourself approach, allowing people to completely customize their care plan.

Trauma is pervasive, and recovery usually involves extensive talk therapy. What is often overlooked is using nutrition as a way to restore a sense of safety and self-trust. Research shows between 75 and 90 percent of physician visits are due to the wear and tear on the body from stress hormones. The gut is often our first indicator that something is awry; it is the watchtower raising the alarm, and the existence of trauma can create a negative feedback loop with the brain that leads to several quite common gut-brain axis complaints, such as anxiety, depression, IBS, and pain.

More than “just” a nutrition book, This Is Your Body on Trauma helps people make connections between what is going on in their mind and body with a unique 360-degree integrative approach to mental health. Using a unique, customizable approach, readers are given a series of experiments based on recommendations, formulating their needs and providing actionable solutions to lessen the perception of stress with nutrition. This book will help people who have experienced traumatic events as both a child and an adult, those who experience chronic stress, as well as people who have experienced food trauma heal and manage the physiological impacts of that trauma throughout their lives.

- The experiments provided in the book can be done in collaboration with a therapy or nutrition provider.
- This book is the only one that discusses not only nutrition for trauma (what to eat) but also applies it in a trauma-informed way (how to eat to avoid triggers).

THE HEALING WISDOM OF THE FOREST

by Anthony D. Fredericks

Unlock the power of personal wisdom with nature's best teacher: trees, sentinels of both understanding and insight.

In every civilized country, trees have been revered for their arboreal wisdom, common sense modeling, botanical philosophy, and lifelong acumen. They are, without argument, icons of counsel and direction. Trees offer commending insights for our lives...lives succumbed to stress, anxiety, and loss of focus. Trees are, in so many ways, individual examples of determination, vibrancy, and passion; not for a moment, but rather for a lifetime. *The Healing Wisdom of Trees* offers sixty-five separate essays of practical advice that can change lives for the better; a collection of scientific and psychological insights that can renew and reinvigorate for the long term.

This is not a book about spirituality, trees that talk to us, or ever-knowing sprites that gambol through the forest. It is a collection of compelling anecdotes and vivid stories about how trees serve as valuable models for our lives; how we can deal with the challenges of everyday living, and how we can grow as individuals. With the best-selling author of *The Secret Life of Clams* and *In Search of the Old Ones*, Anthony D. Fredericks, you'll venture into a redwood forest to learn about how trees show us the importance of community, you'll discover how peach trees model the power of friendship, you'll see how cherry trees exemplify the significance of calmness, and you'll learn how aspens demonstrate our need to draw strength from others. Here, trees are our mentors and our teachers.

Part travelogue, part natural history, part science, and part psychology, this absorbing book shows us how we can reinvigorate our lives, reduce everyday stress, and bring out the best in ourselves when we heed the wisdom of trees.

THE TWELVE STEPS

by Anonymous

In this inventive and profound exploration of the Twelve Steps and Twelve Traditions, an old-timer of the program reveals the recovery journey for what it truly is: a modern retelling of the classic hero's journey of transformation that frees spiritual energy trapped by addiction, pouring it back into the world, thus healing both the individual and the society.

The Twelve Step journey of recovery is, at its core, the modern retelling of the age-old archetype of the Hero's Journey. This powerful pattern of transformation is revealed in three stages: separation, initiation, and return. These stages perfectly describe the journey of recovery as well, and when further broken down into their individual steps—such as answering the call, getting a mentor, and, most important of all, having that mentor introduce the hero to a Power greater than himself—the true meaning and purpose of the recovery journey comes alive. *The Twelve Steps: A Modern Hero's Journey* deepens and inspires all those on their own journey of recovery, regardless of the type of program they are in. The treasures awaiting those bold enough to venture into the adventure will heal not only themselves, but all of humanity as well.

Classic tales from mythology, such as *The Odyssey* and the adventure of Hercules, as well as modern stories from popular literature and film, such as Luke Skywalker's in the *Star Wars* series and Harry Potter's journey through Hogwarts, plus many more, illuminate the Twelve Step journey, and offer a deeper and more reverent understanding of this sacred pattern of transformation. *The Twelve Steps: A Modern Hero's Journey* entertains, informs, and delights readers with a profound new understanding of the journey they are on, a journey countless of heroes before him or her have taken since the beginning of time.

Quotes about THE TWELVE STEPS:

“ . . . wonderfully sharp and knowing . . . unexpectedly gripping.”

— Kirkus Reviews

“Recovery is indeed a heroic journey, and the author shines a light on the transformative power of Twelve Step programs through this fascinating exploration of the relationship between the Steps and Joseph's Campbell's most celebrated work. In doing so, the author honors the undertaking of sobriety and abstinence, providing invaluable encouragement to those who have the courage to let go of who they have known themselves to be for the possibility of who they might become. Beautifully written and deeply inspiring.”

—Katherine Woodward Thomas, New York Times bestselling author of *Calling in "The One:" 7 Weeks to Attract the Love of Your Life* –

“The Twelve Steps: A Modern Hero's Journey offers great insight into the twelve-step journey, and it does so with unusual scope, enchanting detail, and breathtaking clarity. Academics, clinical addiction professionals, researchers, and the lay public will all be drawn into this book. Its stories and its revelations, and its elegant, real, and compelling handling of our shared and ancient all-too-human nature will surely win many readers over. Highly recommended!”

DEAR DREW

by Melissa Hull

A guided healing journey with lessons and tools for self-discovery, transformation, and limitless growth.

Western culture has long struggled with the treatment of trauma, loss, and grief, often wishing to sweep the “ugliness” under the rug. More recently, the phrase “it’s okay to not be okay” has come into vogue, opening up the possibility of showing grief and sadness to the world. While this sentiment is absolutely true and useful in the initial stages of loss, grief, and healing, many people don’t realize that it’s also okay to want to be more than okay. They take on their trauma as their identity—the grieving parent, the injured divorcé, the abused child—and thus limit themselves and their capacity for joy and happiness.

In *Dear Drew: Creating a Life Bigger Than Grief*, Melissa Hull offers readers a provocative alternate view: We have a choice in how we heal. We can choose to make grief or trauma a point of personal discovery and allow it to open us up to beautiful learnings and a happy, meaningful life. By recognizing the moment of agency—and acting on it—we are empowered to heal, transform, and thrive. This is some of the most difficult emotional work one can ever do but also some of the most rewarding.

Drawing on her experience of losing a child to drowning, Melissa speaks from a place of deep healing from both the loss and her related feelings of guilt. The book’s title references not only Melissa’s son and the letters she wrote him after his death but also a letter from a stranger, Theresa, that saved Melissa’s life and became a touchstone. This book is Melissa’s letter to those who have experienced trauma so severe that they can only trust the voice of someone who has survived similar pain.

UNMASKING FEAR

by Guryan Tighe

Imagine the possibilities if instead of avoiding the things you feared, you approached them with courage and curiosity.

When we are in the grip of fear, our world can get very small and for many of us, the number of choices shrink to just four basic reactions: fight, flight, freeze, or fawn. That's not a lot of options. On a collective level, elements of our society like governments, religions, and businesses sometimes instill fear to divide and control—to keep us feeling dependent on them instead of ourselves. On an individual level, fear can be the reason we're living a life that's not reflective of our truth or potential. It's what keeps us feeling stuck and holds us back. What most of us don't realize is that fear has much to teach us.

"Fear Technician" Guryan Tighe reframes the way we approach fear from the goal of conquering it to a goal of learning from it by providing readers three gateways to look at fear in a way that frees us: curiosity, gratitude, and purpose. She shows us how to interrupt our initial reaction, pause, check in with ourselves, and rewrite the patterns we use to respond to that which we fear. With this shift in thinking and how to engage it, readers will find new pathways forward as they shift from unintentional reactions to intentional responses.

Unmasking Fear shows us that fear is courage unrealized and understanding our fears frees us to pursue the life we want.

YOUR SHOPPING SUPERPOWER

by Diane Osgood, PhD

***Your Shopping Superpower* provides an insightful guide and strategies for shoppers to align the contents in their carts with their personal values.**

Are there harmful toxins in your food and body care? Who makes the products you purchase and under what conditions? What impact does the production of these items have on the environment? Unfortunately, our shopping choices can unintentionally contribute to climate change and social injustice. Many people wish they could do more to combat these unjust and unsustainable outcomes. So what is the connection between our purchases and this impact? *Your Shopping Superpower* explores this important question and offers a comprehensive guide that navigates toward positive and sustainable shopping practices by providing pragmatic tips, tools and revealing how our habits can help reduce climate change, support companies with equitable workplace conditions, and foster diverse, local businesses.

Broken into categories including People, Planet, Community, and Health, Diane Osgood expands on key issues regarding climate degradation, labor exploitation, products containing carcinogens and toxins, and the importance of supporting local, women-owned, and minority-owned businesses while covering an array of products that include food, fashion, gifts, household items, and personal care. Addressing shoppers' doubts about whether consumer choices truly have an impact and their concerns about costs and accessibility, Osgood shows how making these easy changes fosters happiness.

By changing what we buy, we can initiate the change in our economy's environmental footprint and social impact. To enact change, we must start simple; it's about progress, not perfection.

While humanity faces unprecedented ecological and social challenges, advances in technology and our understanding of the mind are creating the conditions for a global renaissance.

Weaving together personal transformation through transhumanism with a call for global collaboration, author Milan Kordestani presents an inspiring roadmap to a brighter future.

Humanity stands at a crossroads. Technological development outpaces our confidence, with each innovation bringing both wonder and unease. We grapple with the fear of the unknown and the anxieties of a rapidly changing world. We wonder if new technologies will decimate our job market, increase inequality, or endanger our species. But what if the key to unlocking our full potential lies not in clinging to the familiar, but in embracing humanity's potential for radical thinking?

Moonshot Moments is a marriage of science, philosophy, history, and futurism. Bestselling author Milan Kordestani chronicles his journey to thrilling and unforeseen frontiers in our understanding of consciousness, the self, and humanity's cosmic destiny. His exploration moves beyond the growing anxiety over rapid AI development to offer a unifying, transhumanist vision for the future of humankind. He delves into the biohacking of human consciousness, exploring how, amid a world offering both suffering and joy, we can cultivate presence and discover meaning in our lives. Readers will discover how to organize their own mindsets and work toward a collaborative community that is fueled by innovation, building a society that will spark solutions to tomorrow's challenges. *Moonshot Moments* is not just a glimpse into a brighter future, it's a blueprint for actively creating it.

YOUR ROOTS CAST A SHADOW

by Caroline Topperman

A narrative of cultural translation, identity, and belonging.

The thrill of a new place fades quickly for Caroline Topperman when she moves from Vancouver to Poland in 2013. As she delves into her family's history, tracing their migration through pre-WWII Poland, Afghanistan, Soviet Russia and beyond, she discovers the layers of their complex experiences mirror some of what she felt as she adapted to life in a new country. How does one balance honoring both one's origins and new surroundings?

Your Roots Cast a Shadow explores where personal history intersects with global events to shape a family's identity. From the bustling markets of Baghdad to the quiet streets of Stockholm, Topperman navigates the murky waters of history as she toggles between present and past, investigating the relationship between migration, politics, identity, and home. Her family stories bring history into the present as her paternal grandmother becomes the first woman allowed to buy groceries at her local Afghan market while her husband is tasked with building the road from Kabul to Jalalabad. Topperman's Jewish grandfather, a rising star in the Communist Party, flees Poland at the start of WWII one step ahead of the Nazis, returning later only to be rejected by the Party for his Jewish faith. Topperman herself struggles with new cultural expectations and reconciling with estranged relatives.

A study in social acceptance, Topperman contends with what one can learn about an adopted culture while trying to retain the familiar, the challenges of learning new languages and traditions even as she examines the responsibilities of migrants to their new culture, as well as that society's responsibility to them.

EMBODY

by Toni Bergins M.Ed.

Embodiment is the new buzzword in personal transformation, but, most often, it is connected to static practices like breathwork and meditation. For Toni Bergins, embodiment is best achieved through active movement, and has created a practice where people literally get out of their heads and into their bodies!

In Embody, Toni Bergins, the founder and creator of JourneyDance, an internationally renowned dance movement program, shares with readers a powerful way to address trauma mindfully so people can confront it, heal, and grow to love themselves unconditionally, just as they are. Embody is a dynamic, conscious practice that can help people release what no longer serves them and shows them how to stop stuffing/numbing the pain and start feeling, stop over-thinking/limiting, and get moving!

Her program is a trauma-informed one that offers a new promise: leading readers through deep, personal work but making it feel like play, which is comprised of five core elements:

- Music, to open the doorways of impulse, imagination, creativity and healing to change mood and awareness;
- Movement, to enhance presence and confidence, and release old patterns and traumas;
- Mystical Inquiry, where imagery and creative visualization exercises are used to guide readers into an alchemic and shamanic state to investigate past hurts, and learn to trust their instincts;
- Prayers and Invocations, to raise energetic vibrations to a positive place with powerful affirmations; and
- Journaling, with writing prompts to process inner self-awareness learned on the dance floor or through any of the other Embody elements.

BEYOND SELF-CARE POTATO CHIPS

by Amber Wardell, PhD

Toxic self-care culture tells women that bubble baths and Botox are the route to happiness and fulfillment. Though these types of self-care can fill us up in the moment, they cannot provide long-lasting nourishment. They are empty calories—the potato chips of self-care. And from them, we can never get full. In the same way, we will not feel fulfilled by reaching for the empty calorie “self-care” trends that toxic, materialistic self-care culture sells us. To fill our exhausted bodies and weary minds, to live fully and authentically, we need the kind of self-care that nourishes.

Beyond Self-Care Potato Chips is a call to action for women everywhere to reach instead for nourishing self-care. Though this may sound easy in theory, many women struggle to carry it out. We struggle because we have forgotten how to reach. Our training as little girls taught us that it is polite to be grateful for what we get. To say thank you but I'm full when offered second helpings. To accept the potato chips we are given because there are people on this planet who have none, so how dare we ask for more?

Through the narrative voice of a psychologist who is also an exhausted millennial mom trying to keep it all together, *Beyond Self-Care Potato Chips* explores courageous self-care in the areas of marriage, motherhood, family dynamics, friendships, career life, and mental health. The author's personal stories range from the hilariously-yet-painfully relatable to the resonantly heart-rending. Each of these stories—the beautiful, the sparkling, the sad and the chaotic—teach women something about what it means to reach. What it means to stop settling for potato chips and to instead grasp for the things that truly fulfill. *Beyond Self-Care Potato Chips* is a mindset—a way of embracing and stepping into all our divine, feminine power.

NO SCRAP LEFT BEHIND

by Teralyn Pilgrim

The story of a mother's quest to end her family's food waste—and all the blunders that came with it.

Teralyn Pilgrim had no idea the environmental and economic impact of food waste, or that she could save \$100 a month by being waste free. But when a story of hungry children fills her with unbearable guilt, she decides to make a change to the way her family approached mealtime. Despite finicky kids and a skeptical husband, Pilgrim turned her feelings of guilt into action and created a zero-food waste kitchen.

Pilgrim began her journey by defining food waste with Rule #1: the Hungry Kid Test—would you throw something edible away with a hungry child watching? If the answer is yes, it can go in the compost. If the answer is no, then it's time to get creative.

Narrating her trials and errors—emphasis on errors—Pilgrim invites readers to her table where leftover food is a personal challenge to reduce waste, save money, and guard against squandering natural resources. Things get tricky when she discovers a five-year-old fish in her freezer, accidentally buys the grossest fat-free cookies in the world, and finds her dog is as picky as the kids. Addressing myths about how being waste-free is too hard (it's not) and whether expiration dates mean anything (they don't), Pilgrim teaches readers clever ways to be resourceful while also offering a broader look at why food waste matters and the global effects of this massive problem.

OUR NEW WORLD OF ADULT BULLIES

by Bill Eddy

Our New World of Adult Bullies connects the dots to show how bullies at all levels of society follow the same predictable patterns of behavior.

Bullies exist everywhere: families, workplaces, neighborhoods and communities, politics and government, and organizations of all types and sizes. And in a media landscape where conflict, crisis, chaos, and fear reign supreme, every day we see the worst behavior of celebrities, politicians, and other public figures who serve as role models.

Bullies act in the same highly predictable patterns, regardless of their demographics and situation. By focusing on the ten hidden powers bullies employ—from their unrestrained nature and bully story to manipulating emotions and playing the victim—Bill Eddy unpacks the way bullies rely on primitive emotions and nonverbal behavior. He helps readers spot these behaviors and offers practical actions before they become immobilized by helplessness, blame, and shame.

In today's world, we all may have an adult bully in our lives sooner or later. For anyone who has a bully in their life now, for professionals who counsel victims of bullying, and for anyone who is concerned about the fraying of our culture and society, this book gives effective strategies to prevent bullies from taking over.

TENDER PAWS

by Wendy Lyons Sunshine

When Wendy Lyons Sunshine got her first puppy—abandoned behind a gas station, struggling with worms and anemia—she was in over her head. As puppy training guides failed to help her with the out-of-control, traumatized bundle of teeth and claws rescue pup, she turned to her work helping world-class child development experts. Could strategies for raising happy, well-adjusted kids transfer to a puppy?

As it turns out, yes, they can! From the first try, parenting wisdom transformed Sunshine's relationship with her challenging little one. Soon enough, Sunshine's view of her puppy shifted from one of adversity to one of compassion and understanding, and she was able to bring patience and therapeutic concepts to meet her dog's needs. When Sunshine reached out to experts, they affirmed that science-based principles used with at-risk children align well with best practices of holistic, positive, and progressive dog handling.

Far from a standard dog training manual, *Tender Paws* explicitly applies parenting wisdom and best practices used with special needs kids to a cross-section of scenarios, from recognizing developmental trauma and unmet core needs, to making decisions about appropriate equipment, to responding to difficult behavior, to understanding the parenting style from which we approach our dogs.

Borrowing the principles of parenting for dogs feels obvious to some people: instinctive and ordinary and inevitable. But that's not true for everyone, especially those of us who had a less than ideal childhood and bear the scars of early harm, loss, trauma, or deprivation. *Tender Paws* provides an interdisciplinary, comprehensive, evidence-based guide for readers who want to honor the needs of—and improve outcomes for—puppies and dogs they care about.

YOU DON'T HAVE TO CHANGE TO CHANGE EVERYTHING

by Beth Kurland

A unique approach to healing that emphasizes changing our perspectives instead of changing ourselves. Instead of struggling to change our inner experiences, we transform the container in which they are held. From here, wholeness and healing are possible; this is where actual change lives.

One of the most significant sources of suffering comes from our human tendency to avoid difficult emotions. We are not taught how to face these unpleasant, often daily inner experiences (mind-body energies) and so we tend to push them away, ignore them, or become unwittingly overwhelmed by them. Yet how we meet and greet these difficult emotions has everything to do with our well-being, resilience, and ability to connect with ourselves and others. Instinctually, we fight against our uncomfortable emotions; in doing so, we reinforce messages of “not good enough” or “something is wrong with me that I am feeling this way.”

In *You Don't Have to Change to Change Everything*, readers learn that instead of forcing themselves to feel “happy” and pushing away what is unpleasant, or instead of getting hooked by intense emotions, another path can lead to more profound well-being. Rather than trying to change one’s inner experiences, this book offers six ways to shift one’s vantage point when difficult emotions arise. Being aware from each of these six vantage points allows readers to cultivate inner stability, willingness to turn toward rather than away from themselves, greater perspective, internal strengths and inner resources, self-compassion, connection with the “Whole Self” versus identification with “hole self,” and interconnection with the world around them.

SLEEP WELL, TAKE RISKS, SQUISH THE PEAS

by Dr. Hasan Merali

Harvard-trained pediatrician Hasan Merali, MD, presents the first book to explore what toddlers have to teach us about living our best lives, based on important studies from the fields of child psychology and child development for the past twenty years.

These extraordinary youngsters can be impulsive, yes, but with this comes a remarkable ability to take risks and ask questions—two qualities that can help us enjoy life more. Toddlers act kindly toward strangers, are eager to work with others to solve problems, and demonstrate extraordinary dedication and perseverance. These are all traits that many of us aspire to have in order to improve both our personal and professional lives.

To unpack this behavior, Dr. Merali includes many humorous examples from his experience as a pediatrician and father, but the core lessons are drawn from two decades worth of fascinating and surprising studies in child psychology and development. Merali connects these studies to research about adults to create the first book to offer adults important lessons that can be gleaned from toddlers. Toddlers can teach you many things, including how to:

- Lose weight naturally
- Sleep better
- Build stronger friendships
- Improve teamwork
- Be more productive
- Have more fun, and
- Live a more fulfilling life

STREET SMART SAFETY FOR WOMEN

by Joy Farrow and Laura Frombach

In a book written by women for women, *Street Smart Safety for Women* offers tips on defensive living that will increase readers' reliance on the one thing that can protect them most: their safety intuition.

Violence against women is a global health issue. The threats women face today are unparalleled and more dangerous than ever before. And, for the first time in history, the toxic cocktail of technology and social media has weaponized misogyny and virtualized violence against women. There's an even more serious challenge that faces women today. Social conditioning—the way our systems of family life, education, employment, entertainment and pop culture, spirituality and religion influence us— leaves many of us ill-equipped to deal not only with this escalating surge of attacks, but also the unrelenting prevalence of sexual assault, domestic violence, and scams.

Women have been trained to discount one of their greatest protections – safety intuition. As a result, women are left generally defenseless to recognize predators who manipulate our natural compassion, to our own detriment. This inability to listen to ourselves and be persuasion-proof directly affects our personal safety and data shows that attacks on women continue to escalate daily across the world, inside and outside of the home.

In *Street Smart Safety for Women*, retired Deputy Sheriff Joy Farrow and technologist Laura Frombach, herself a survivor of a violent household, draw on their experiences both personal and professional to provide those answers. Dedicated to educating women in personal safety and showing them a defensive living strategy and trusting in themselves can reduce their probability of becoming a victim of a crime.

IT'S NOT YOUR FAULT

by Laura K. Connell

A guide to help readers uncover the subconscious reasons they hold themselves back along with an exploration of the ways negative childhood experiences have impacted their lives and fed into the problem.

We are sometimes our own worst enemies, sabotaging our success and with it our chance for lasting happiness and opportunities for personal and professional fulfillment. It's Not Your Fault helps readers uncover the subconscious reasons they hold themselves back. These blind spots were often created in childhood as coping mechanisms in response to trauma. Rather than teaching tactics that ignore or give surface attention to adverse childhood events, the book lovingly guides readers to explore the ways these events have impacted their lives and how this knowledge will help them access true transformation. Readers will be relieved to discover that it's not a lack of willpower that has held them back, but a lack of self-knowledge instead.

Those who have been let down by traditional therapeutic techniques know that behavior modification doesn't work for everyone. Simply doing things differently while staying the same on the inside might help for the short term, but before long old patterns emerge. Once they decide to get serious about change, however, and stop tweaking habits in the hope it will result in lasting transformation, they can create a life by design instead of default. It takes work, an internal excavation, and Laura comes alongside the reader as a trusted guide who has been where they are now. She provides the tools and anecdotal evidence to show them how to overcome the pain of self-sabotage and create the life they desire.

AFTERSHOCK

by Geri-Lynn Utter, PsyD.

Aftershock helps people identify and heal from the often-delayed emotional responses to seemingly ordinary life events like the death of a partner, a chronic illness diagnosis, or getting a new job that can have significant impact on our emotions and overall mental health.

You may be at a point in your life where you realize that you have been edgy, a bit depressed, feeling unsettled. Yet everything in your life seems to be okay. You look for a cause, but you just can't put your finger on it. Perhaps you should examine your recent past—six months ago, a year ago—and ask yourself, "What did I go through that was stressful at the time, yet I was able to deal with by suppressing my stress until that situation was over?"

"Aftershock" is a term coined by clinical psychologist Dr. Geri-Lynn Utter, who came to recognize this largely ignored scenario in many of her patients. As a subclinical level of the more familiar post-traumatic stress disorder, "aftershock" may underlie your present emotional stress, a delayed emotional response that affects many of us after common, yet big deal, life events such as miscarriage, moving to a new city, divorce, or, for some people, the Covid-19 pandemic that has rocked much of the world. The "Aftershock" concept can be applied to many, inevitable (even universal) human experiences: changing jobs or careers, divorce, transitioning from "school life" to the real-world (aka: adulthood), death of a parent, child, or spouse, etc.

The book helps readers understand this psychological trauma—what it is and what causes it, how to recognize the symptoms, and how to heal when life's stressors keep you in the center of the aftershock of a storm.

UP THE DOWN ESCALATOR

by Lisa Doggett, M.D.

A memoir of triumph in the face of a terrifying diagnosis, *Up the Down Escalator* recounts Dr. Lisa Doggett's startling shift from doctor to patient, as she learns to live with multiple sclerosis while running a clinic for uninsured patients in central Austin, Texas.

A self-described health nut, Lisa was shocked to become a patient herself when she was diagnosed with multiple sclerosis, a bizarre neurologic disease known to be a leading cause of disability in young adults. Since her MS diagnosis, she has battled frustrating symptoms and insurance companies. She has experienced relapses and has explored alternative treatments. But she has also run two marathons, traveled to five continents, raised two daughters, and embraced her job as a lead physician creating innovative programs for people with chronic disease around the country.

Facing the prospect of a career-ending disability as she adjusts to life with multiple sclerosis, the book chronicles how she is forced to deal with a new level of uncertainty and vulnerability, and the everyday fear that something new will go wrong. Taking off her white coat—becoming a patient herself—she confronts unimaginable fears, copes with her limitations, and sidesteps her skepticism of alternative medicine to seek help from unlikely sources. The disease pushes Doggett—a perfectionist at heart—to soften her inner drill sergeant and embrace self-compassion.

This hopeful and uplifting book will encourage those living with chronic disease, and those supporting them, to power forward with courage and grace. It will spark conversations to redefine perfect parenting and trigger uncomfortable discussions and outrage about the vicious inequalities of health care in the U.S. Most of all, it will inspire readers to embrace the gifts of an imperfect life and look for silver linings, despite life's detours that sabotage plans and take them off their expected paths.

THE ANXIETY AUDIT

by Lynn Lyons, LICSW

Anxiety expert Lynn Lyons, whose advice appears regularly in *Psychology Today* and the *New York Times*, offers an eye-opening look at the 7 sneaky ways that anxiety and worry weave their way into our families, our friendships, and our jobs, and provides actionable steps to reverse the cycle and reclaim our emotional well-being.

Ask people to describe anxiety and they'll start with the familiar physical symptoms: racing heart, sweaty palms, difficulty breathing and a frightening loss of control. Anxiety has become the new normal, constant and simmering, disguising itself in patterns and responses we don't even recognize as anxiety. These patterns include:

- Ruminating and worrying (and mistaking it for problem solving)
- Going global, or seeing the world through an overwhelming, all-or-nothing lens
- Isolating and disconnecting, all too common in our "new normal"
- Creating chaos and "busy-ness", for example, over-scheduling and multitasking
- Embracing your irritability
- Confusing self-medication with self-care

The Anxiety Audit is a time-tested practical guide to untangling yourself from the grips of worry and fear. Using stories, real-world examples, and helpful dialogues to retrain the way you think and react, Lynn Lyons helps you recognize the sneaky ways these anxious patterns and cycles of worry take hold in your life. By making small and consistent adjustments, you can reverse their negative impacts and move forward with renewed clarity and confidence. So if life keeps you up at nights and anxiety fills your days, *The Anxiety Audit* is the way to stop needless worry and focus on life's positive aspects.

HOLDING ON WHILE LETTING GO

by Pickhardt, Carl, Ph.D.

Harvard-trained psychologist and Psychology Today parenting expert Carl Pickhardt gives parents an eye-opening look at the rocky road to parenting a teenager, revealing the Four Freedoms that every child must master to become a healthy adult--and how parents can adapt, encourage, and grow themselves during these tumultuous times.

Parenting a teenager is not for the faint of heart. And there's a reason the road is rocky--it's supposed to be. Children must pass through "four unfolding freedoms" in order to become competent, independent, and confident adults. How easily parents can navigate these twists and turns directly correlates to how successful their children will be. The four unfolding freedoms are these:

1. freedom from rejection of childhood, around the late elementary school years, when they want to stop acting and being treated as children anymore.
2. freedom of association with peers, around the middle school years, when they want to form a second family of friends.
3. freedom for older experimentation, around the high school years, when they want to try more grown-up activities.
4. freedom to claim emancipation, around the college age years, when they decide to become their own ruling authority.

With each successive push for freedom, both parents and teens need to learn how to do less holding on to each other while doing more letting go

CHOOSING LEADERSHIP, revised

by Dr. Linda Ginzel

Award-winning leadership teacher, lifelong educator, University of Chicago professor, and consumer advocate Dr. Linda Ginzel offers a new and expanded version of Choosing Leadership based on her bestselling workbook. Useful to everyone, from high-level executives to high school students, teachers, and stay-at-home parents, Dr. Ginzel how you can choose to be a leader.

The book gives readers the tools to sharpen leadership skills, putting the responsibility for personal growth and professional development in their own hands. It counters stereotypes that it takes a fancy title, big budget, impressive credentials, charisma, or innate leadership traits to be a “leader.” Rather, leadership is a choice; you choose when to manage and when to lead. It provides an opportunity to answer tough questions of yourself, process your own life lessons, reflect on your unique experiences, and create your best future self. This process of selfdiscovery will help you develop individualized, customized wisdom and be your lifelong companion on the road to being wiser, younger.

Now revised, with the addition of Learning Modules for each chapter, Choosing Leadership provides step-by-step guidance to create group experiences designed to enable reflection, explore ideas, and enhance self-understanding. These group experiences create collective wisdom and encourage learners to make better and more thoughtful choices. Through peer discussions, readers learn how to coach themselves. While gaining self-understanding, they also gain confidence.

CHANGING WITH AGING

by Don Kuhl

Don Kuhl, founder of The Change Companies®, shares the 10 big lessons he learned throughout life's little moments.

Don Kuhl has brought inspiration and transformation to millions by creating Interactive Journals that help people reflect on where they've been, where they are, and where they wish to go. Now it's Kuhl's turn to share his stories of growing older and the wisdom he has gained along the way. Before he founded The Change Companies, Kuhl managed motel properties, started several sports publications, worked in college and health care administrations, and launched about a dozen corporations. Some of them failed miserably, a few flourished.

Kuhl touches upon themes of gratitude, taking risks, appreciating the ordinary, and remaining open to all possibilities, giving readers a glimpse of living life to its fullest at every age. Some of his lessons include:

- Store happy memories in your brain and play them often
- Give love and hang on to your most meaningful relationships
- Gobble up knowledge
- Accept what is and have gratitude for where you are
- Focus on the positive- don't let bad things define you
- Be kind
- Celebrate small pleasures – everyday joys can last a lifetime
- Be courageous
- Listen to your animal pals – they can teach you a bunch

CHASE THE BEARS

by Ric Keller

An inspiring, humorous, and original book of conventional and unconventional self-help ideas from former Congressman Ric Keller, who rose from humble beginnings to the U.S. House of Representatives.

“Chasing the bears” is a metaphor in life for chasing your dreams. Most people are content to stay inside, play it safe and look out their window as life passes them by. Eventually the clock runs out. On the other hand, a few people take a chance and chase their dreams.

Ric Keller grew up poor and was raised by a single mother. He didn't meet his father until he was 14. At their first meeting, he handed Ric a copy of Napoleon Hill's *Think and Grow Rich*. Ric would read it six times before his high school graduation. Putting the message into practice, he decided to try an experiment and set two big goals: to graduate from college first in his class and get elected to Congress (despite being a political novice with no connections, no money, and initially told to drop out of the race by his own party). Both of these things came true.

In *Chase the Bears*, Ric Keller reveals the five little things you can do to succeed and be happy—no matter where you start in life. They are encapsulated here and woven together with practical, actionable steps interspersed with fascinating anecdotes about others who have made their dreams come true by trusting their instincts, using their gifts, taking risks, and never quitting.

Rik Keller's TED Talk on the subject has gotten 86,210 views since it posted on May 3, 2022.

THE FACEBOOK NARCISSIST

by Lena Derhally; Foreword by Mika Brzezinski

A comprehensive guide for understanding how narcissism on social media impacts our mental health, how to protect ourselves and our children from those affects as well as from narcissists, and how to use social media more mindfully.

Lena Derhally, a licensed psychotherapist certified in Imago therapy, delves into how social media enhances individual and cultural narcissism and how it may create or exacerbate toxic narcissistic tendencies in people who use it. Using her clinical expertise, along with scientific research and interviews with other experts in the field, she thoroughly examines: how narcissism on social media contributes to false narratives and ruptures relationships; how to identify a narcissist on social media (including how to spot the more subtle sub-types of narcissist); how narcissism relates to the “influencer” and celebrity culture; narcissism and cyberbullying, cyberstalking, trolling, and victim blaming on social media; and how social media can create a problem of narcissism in children as they grow up.

Derhally’s expertise in cultivating healthy, fulfilling, and connected relationships helps guide readers to take a deeper look at their behaviors on social media and of those around them. At the end of each chapter, she gives practical tips and takeaways for navigating narcissism online. Derhally also instructs readers on how they may use social media for good, and as a tool for positive social change

CHICKEN LITTLE THE SKY ISN'T FALLING

by Erica Komisar, LCSW

A comprehensive guide for parents who want to raise emotionally healthy, resilient adolescents in a time of great stress when anxiety and mental health disorders are epidemic

In these times of great stress for our kids, resilience is not a given. The epidemic of mental health disorders in adolescents has made parenting even more challenging, but parents can still have an enormous impact on the health and well-being of their child. This book offers parents the tools they need to navigate this tumultuous time of change and create a continuous deep connection with their child.

With covered topics such as anxiety, depression, ADHD, behavioral issues, and addiction, parents will learn how they can recognize mental health disorders as well as obtain compassionate and practical advice on how to address these issues if they occur.

NO REGRETS LIVING

by Harley A. Rotbart, M.D.

Dr. Harley Rotbart's prescription for a life filled with gratitude for what we have and appreciation for what we have done with our time on earth.

No Regrets Living is a proactive, 7-step plan to help us better appreciate what we have in our lives, and take greater pride in what we've done with our lives—without spending precious time and energy wishing things had turned out differently. Of course all of us have had disappointments, lamentable moments. For some, those times have led to lasting unhappiness and a life that feels unfulfilled, even meaningless. Others have found ways to move past the downturns and find better ahead. *No Regrets Living* leads us to see the world through a lens of appreciation for the magnificence around us, which in turn helps us accommodate those not-so-magnificent moments in our lives.

Dr. Rotbart brings his unique perspective as physician, scientist, child of a Holocaust survivor, and heart patient to *No Regrets Living*. Part self-help manual, part inspirational road map, part moving memoir, *No Regrets Living* is a blueprint for reaching greater satisfaction and fulfillment in life.

Woven into the timeless message of the book are especially timely observations on the COVID-19 pandemic from Dr. Rotbart's expert perspective as an infectious diseases physician, including coping mechanisms and paths for going forward as individuals and as a society.

THE WOMAN CODE

by Sophia A. Nelson; Foreword by Mika Brzezinski

A powerful, no-nonsense guide for women that provides them the keys to unlock a fulfilling life.

Every woman lives by a code, whether she realizes it or not. It informs how she treats others and herself, how much she expects of herself, and how far she is willing to go in order to find success. But is the code we're living by truly helping us create the lives of purpose and fulfillment we desire? Or are we sacrificing the deeper things for mere achievement?

In this inspiring book—updated with new insights from the profound economic and societal shifts that have changed our world with the advent of the global pandemic—Sophia A. Nelson calls women to live out a powerful life code that will lead them to purposeful and successful lives. Nelson reveals to women:

- The true meaning of “having it all”
- How to take better care of their minds, bodies, and souls
- How to discover new reserves of strength
- The importance of having courageous conversations to build relationships
- How to achieve professional excellence without compromising their values
- How to find lasting love and purpose in life beyond their accomplishments
- How to navigate the sisterhood of women, to build collaboration rather than competition
- How to heal from past hurts, rejection, and life's inevitable storms

The Woman Code shows women that everything they need to lead the lives they want are already inside of them. Drawing from her personal faith and her experience in the business world, Sophia Nelson explores 20 keys to unlocking the life you want.

THE WOMAN CODE

by Sophia A. Nelson; Foreword by Mika Brzezinski

Quotes about THE WOMAN CODE:

"Nelson explains how women can recognize the codes they operate by and use them to reshape aspects of their lives, using what she calls the "Personal Codes," the "Emotional Codes," the "Spiritual Codes," and the "Professional Codes." Unlike many of today's self-help authors, Nelson doesn't indulge in an us-against-them mentality. Rather, she says that women should be strong, assured, and responsible for their own actions and choices. This refreshing approach is both empowering and enlightening and should appeal to women of all ages." -**Publisher's Weekly**

"The Woman Code exposes the personal, emotional, spiritual, professional and social areas where the distortions lie, and shares principles for making genuine life transformation. The Codes challenge antiquated ideas on womanhood, including attitudes that women have toward one another. The Woman Code is a straightforward, comprehensive guide to liberate the true woman inside." -**Huffington Post Book Review**

OPTIMISTS ALWAYS WIN!

by Kimberly S. Reed, MEd, CDP

Eliminate discouragement and embrace an optimistic attitude in life with concrete tools to turn your life around by an award-winning international speaker, author, corporate trainer and diversity, equality and inclusion strategist.

Our brain's default setting is negativity. Ask anyone who has ever tried to lose weight, achieve a new skill, or incorporate a new habit and they can tell you that our natural tendency is to levitate toward mediocrity. However, optimism overpowers that negativity. In this book, Reed helps readers develop a process to stay optimistic all the time and obtain a level of happiness, peace, wisdom and growth in all areas of our lives. It's choosing optimism instead of anger, bitterness, or revenge.

The book challenges anyone facing what seems to be an impossible situation and shows that victory is absolutely possible. Relying on her own struggles in life and the optimism that she learned to cultivate, Kimberly Reed teaches her readers the ten discouragement eliminators she used, which helped her succeed not just in her fight against cancer but as she lives each day as her best self. The message of this book is simple: difficulties and struggles are unavoidable in life, but a person has complete control over one's personal response to the situation.

THE PLEASURE PLAN

by Laura Zam

Based on popular essays in New York Times' Modern Love column and on Salon, as well as an Off-Broadway one-person play, *The Pleasure Plan* is a sexual healing odyssey, a manifesto for women to claim pleasure as a priority, and a love story all at once .

The World Health Organization reports that 50 percent of women suffer from sexual dysfunction at some point in their lives. Such was the case with Laura Zam, who suffered the blame, shame, and embarrassment of feeling bedroom broken. For her, delving between the sheets meant physical pain, zero desire, and emotional scars from being molested in her early years. However, in her late forties, after meeting and marrying the love of her life, Zam was determined to finally fix her sensual self. In partnership with her initially reluctant husband, she visited 15 healers and tried 30 pleasureenhancing methods: from dilators and dildos, to hypnosis and hosting a sex brunch, to cleansing chakras, to making love to her husband in front of a geriatric Tantric goddess.

Packed with humor, heart, and a healthy dose of prescriptive advice, this book chronicles Zam's insights as she confronts many issues—from mismatched libidos to female erection enlightenment. Throughout this journey, she and her husband grow as individuals and as a couple, both in and out of the bedroom.

BETWEEN GRIT AND GRACE

by Dr. Sasha K. Shillcutt, M.D.

Lessons from bossy, caring, fearless, vulnerable, relentless, forgiving, smart, humble women at the top show readers how to be both kind and assertive and not allow others to assign a role to you that you are not comfortable with.

The book tells women that success comes when you are comfortable living in the space between grit and grace—grit meaning being resilient and taking charge of your life (socially-acceptable masculine attributes), and grace meaning showing others mercy (socially-acceptable feminine trait). Dr. Sasha Shillcutt, a nationally lauded, award-winning physician and speaker, will explain how to give yourself permission to disappoint nice people (and know that you are still a nice person anyway). You'll learn how to stop apologizing for showing your strength and grit, and embrace your grace, too. This is where personal peace lives.

Using real-life stories—ranging from women in law and medicine to women in education—the book explains how women can be feminine and formidable. Leadership and lipstick are not mutually exclusive. You'll realize you can be bossy and caring, fearless and vulnerable, relentless and forgiving, smart and humble—and make it to the top. Across the space of ten chapters, you'll learn how to navigate the forces that have shaped the modern workplace while doing so with grit and grace. When a woman lives authentically—she succeeds.

THE PSYCHOPATH EPIDEMIC

by Cameron Reilly

For readers of the bestselling Sociopath Next Door comes a unique look at the psychopaths among us and how our society--from businesses and governments to religions--encourages and rewards psychopathic behavior, and what average citizens can do to survive and thrive when we must live with, learn from, or be led by psychopaths.

Every day in the news we hear about people in positions of power doing deplorable things--in business, politics, and government, from sexual harassment to polluting the environment to covering up crimes. And it's no wonder considering a small percentage of people wield a large amount of power, and that these very same people fit the definition of a "psychopath."

A highly engaging and gripping read, Cameron Reilly's book adds to our growing understanding of sociopaths with a detailed analysis of how our society encourages and rewards psychopathic tendencies, and how, because of this, psychopaths the world over have risen to power. Using historical references to pop culture examples, Reilly offers a field guide to psychopaths--how to spot them and how to outmaneuver them so you can keep your sanity intact. This is the first-of-its-kind book to examine the shocking evidence and then suggest practical solutions for saving us all.

THE BIG, BAD BULLY

by Jack Canfield and Miriam Laundry

Self-esteem expert Jack Canfield and noted educational speaker Miriam Laundry reveal that the biggest bully in a child's world is not lurking around the corner but living inside her head.

Words have power. The words others say to us can either lift us as high as the clouds, or drop us down like a crashing plane. But what about the words we tell ourselves? What about that constantly running inner voice? In truth, what we say to ourselves impacts us even more than what others say to us.

"Pigtails are for babies!" she snarled at me. Her words hurt more than the time I broke my arm. I quickly untied my hair. I wore my hair down for the rest of the school year.

That was the first time I met the Big Bad Bully. . . . She called me names like "fatty," "piglet" and "ugly." Things are worse now that I am in the 6th grade. Even when I don't see her, I can always hear the whispers, the giggles, and the growls.

So goes the mesmerizing story of a young girl who grows up with a voice that ridicules and demeans her. In the end, we discover that her tormentor is staring back at her every day in the mirror.

Featuring stunning artwork, this small yet profound book is a tool for engaging children, young adolescents, parents, and caring adults about the impressions they make on themselves with their thoughts and self-talk. Included are powerful workbook exercises and resources for implementing healthy self-esteem habits that can last a lifetime.

THE BETRAYAL BOND, revised

by Patrick J. Carnes, Ph.D. with Bonnie Phillips, Ph.D.

For seventeen years The Betrayal Bond has been the primary source for therapists and patients wrestling the effects of emotional pain and harm caused by exploitation from someone they trusted.

Divorce, litigation, incest and child abuse, domestic violence, kidnapping, professional exploitation and religious abuse are all areas of trauma bonding. These are situations and relationships of incredible intensity or importance lend themselves more easily to an exploitation of trust or power.

In The Betrayal Bond, Dr. Carnes presents an in-depth study of these relationships; why they form, who is most susceptible, and how they become so powerful. Dr. Carnes also gives a clear explanation of the bond that compels people to tolerate the intolerable, and for the first time, maps out the brain connection that makes being with hurtful people comparable to 'a drug of choice.' Most importantly, Carnes provides practical steps to identify compulsive attachment patterns and ultimately to change or end them for good.

This new edition includes:

- New science for understanding how our brains can make a prison of bad relationships
- New assessments and insights based on 50,000 research participants
- A new section utilizing the latest findings in attachment research and narrative therapy to concretely rewrite and rescript bad experiences
- A redefinition of the factors contributing to addictive relationships

PRODEPENDENCE, revised

by Robert Weiss, Ph.D., MSW

***Prodependence* revolutionized addiction healthcare by improving the ways we treat loved ones of addicts and other troubled people by offering them more dignity for their suffering rather than blame for the problem. This revised edition builds on the model, revealing many more ways to put the method into practice and strategies for setting healthy boundaries.**

Do you love an addict? Do you sometimes feel like their addiction is your fault? Are people calling you codependent? If our treatment toward loved ones of addicts alienates them, it's time we change our approach.

With *Prodependence*, Dr. Robert Weiss offers us the first fully new paradigm in nearly 40 years for helping those who love and care for addicts. An attachment-focused model, prodependence recognizes that no one can ever love too much, nor should anyone be pathologized for whomever they choose to love as is often the case. Prodependence informs caregivers how to love more effectively, but without having to bear a negative label for the valuable support they give. When treating loved ones of addicts and other troubled people using prodependence, we need not find something “wrong” with them. Instead, we acknowledge the trauma and inherent dysfunction that occurs when living in relationship with someone whose life is failing and keep moving forward. Validating a caregiver's painful journey for what it is opens the door to support them in useful, non-shaming ways.

Helping people take incremental, positive steps toward intimate healing is what *Prodependence* is all about

FROM FEARFUL TO FEAR FREE

by Marty Becker, DVM; Dr. Mikkei Becker; Dr. Lisa Radosta; and Dr. Wailiani Sung

Almost every dog owner has a pet who suffers from fear, anxiety, and stress (FAS). They are the underlying cause of many concerning behaviors such as excessive barking, aggression, destructive behaviors, and house-soiling. They are also the source for deterioration of the human-animal bond. Left untreated, these negative experiences can lead to devastating consequences and permanent damage.

Finally, there's help. From Fearful to Fear Free is based on the groundbreaking Fear Free program embraced by tens of thousands of veterinary healthcare professionals and hundreds of thousands of pet owners (fearfreepets.com and fearfreehappyhomes.com). By knowing your dog's body language, vocalizations, and changes in normal habits, you can make an accurate diagnosis and take action to prevent triggers or treat the fallout if they do happen.

You'll learn:

- The most effective prescription sedatives for keeping dogs calm and happy during thunderstorms, fireworks, and other stressful events.
- The positive steps you can take to keep your pet occupied, calm, and content while you're away at work or play.
- Simple, practical tactics for helping your dog learn to love going to the veterinarian's office—literally pulling you into the practice instead of avoiding it!
- How to easily groom your dog and give him medication.
- Tips to tame the chaos when guests arrive in your home or when your dog encounters other dogs and people on walks.
- Ways to tackle some of the common behavior issues that often have a root cause of FAS, while also improving your communication and bond with your pet.

MENTALLIGENCE

by Kristen Lee, EdD. LICSW

One of the greatest gifts we can give to ourselves is rethinking what we've been taught, because thoughts become behaviors. The same mind that gets us stuck is the same one that can set us free. We need a new organizing framework that allows more flexibility and moral grounding—one that lets science, emotion and spirit to fuse.

Too often, life's disorienting moments can leave us tumbling into messy, downward spirals. We lose clarity, and are held hostage by blind spots that keep us from thriving. In this uniquely liberating book, Dr. Kristen Lee teaches us how to apply a process of behavioral change using a series of different lenses, to steer our brains to overcome blind spots. We learn how to unlearn behaviors that no longer are relevant to our life and break free from society's expectations of what we should do to be perfect. Instead, she demonstrates how we can change our behavior and be more authentic in our life – resulting in our overall success and well-being.

A leading expert on resilience and behavioral science, Dr. Kristen Lee developed this new psychology of thinking model from over twenty years of clinical practice, the latest neuroscience, and her own research findings. Rather than falling for predominant definitions of 'success' that leave us boxed in, depleted, and oblivious to ways we can work together, Mentalligence helps us find the thinking and behavioral agility to work towards better outcomes for all.

Jack Canfield is a master motivator, world-renowned teacher, and bestselling author of *The Success Principles*. In his book, *Success Affirmations*, he helps readers break through to new levels of passion, purpose, and prosperity with 52 affirmations and time-tested wisdom.

In our 24/7 world, where we move at warp speed, sometimes we let life happen to us instead of taking control of our direction. Other times, we suffer from information overload, and we fail to consciously control our positive thoughts, and we allow negativity to take over. For those who want to rise above, to get unstuck, or to catapult to a new level success, Jack Canfield will show you how positive affirmations can transform your life in extraordinary ways.

Canfield, with the help of esteemed co-authors Kelly Johnson and Ram Ganglani, explains what positive affirmations are (and what they are not), why they are so effective, and how to effortlessly integrate their practice into your life. Pulling the most effective tenets from his bestselling book *The Success Principles*, Canfield covers all areas of life, from financial prosperity and creative pursuits to your career and positive relationships. *Success Affirmations* reveals:

- How to avoid letting life just happen to you, and how to proactively go after your dreams
- How to use the power of deliberate thought to create the reality you want
- How to identify your true passions and purpose to direct your affirmations to concrete goals, not nebulous ideas or someone else's vision
- How to harness positive energy to attract what you want in your life through the Law of Attraction
- How to unplug from technology and plug into your true source of energy

A DIGNIFIED LIFE, revised

by Virginia Bell, M.S.W. and David Troxel, MPH

A practical and essential guide for caretakers of more 44 million people worldwide who are living with Alzheimer's. By the year 2030, experts estimate that as many as 66 million people around the world will be faced with this lifealtering disease. These staggering statistics impact millions of caregivers, too. Compared with all types of caregivers, those who assist someone with dementia experience the highest levels of burnout, depression, poor health, and premature death. A Dignified Life, Revised and Expanded offers hope and help with a proven approach.

Ten years ago, the first edition of A Dignified Life changed the way the caregiving

community approached Alzheimer's disease by showing caregivers how to act as a Best Friend to the person, finding positive ways to interact even as mental abilities declined. Firmly grounded in the latest knowledge about the progression and treatment of dementia, this expanded edition offers a wealth of immediately usable tips and new problem-solving advice. NEVER FEAR CANCER AGAIN

by Raymond Francis, M.Sc.

A proven guide to preventing and reversing cancer from an internationally recognized leader in the field of optimal-health maintenance.

Most cancer research dollars have been wasted by asking the wrong questions, looking in the wrong places, and recycling the same failed approaches while expecting different results. Conventional cancer treatments damage health, cause new cancers, lower the quality of life, and decrease the chances of survival. In fact, most people who die from cancer are not dying from cancer, but from their treatments!

The good news is that we can end the cancer epidemic. In *Never Fear Cancer Again*, readers will gain a revolutionary new understanding of health and disease and will come to understand that cancer is a biological process that can be turned on and off, not something that can be surgically removed or destroyed with radiation or toxic chemicals. So whether cancer has already been diagnosed or if prevention is the concern, it is possible to turn off the wayward production of these malfunctioning cells once and for all by reading this book and implementing its strategies.

The key to any disease has one simple cause: malfunctioning cells that are created by either deficiency or toxicity. By switching off the malfunctioning cells, you switch off the cancer. *Never Fear Cancer Again* guides readers along six pathways that cause deficiency or toxicity at the cellular level: nutritional path, genetic path, medical path, toxin path, physical path, and the psychological path. By making key lifestyle changes, people truly have the power to take control of cancer and transform their health. This radically different, yet holistic approach restored author Raymond Francis back to health just as it has helped thousands of others, many of whom were told they had no other options or that their cancer was incurable. Take back your health with this book and never fear cancer again.

EMOTIONAL SOBRIETY

by Tian Dayton, Ph.D., TEP

Picking up right at the point where Janet Woititz's book *Adult Children of Alcoholics* left off, clinical psychologist Tian Dayton's latest contribution contains fresh perspectives and new analysis on how to gain back emotional stability after growing up with the trauma of addiction, abuse, and dysfunction.

Dr. Dayton accomplishes this by presenting and explaining the latest research in neuropsychology and the role trauma plays on chemically altering the brain. With compassion and clear explanations and her own personal journey, Dayton teaches readers how to undo the neuropsychological damage of trauma to rewire the brain and reverse the negative effects trauma has on our future relationships and behaviors to gain emotional sobriety.

In *Emotional Sobriety*, Dr. Dayton teaches readers:

- How to understand the mind/body relationship of addiction and relationship trauma
- How to rewire your brain to undo the negative effects trauma has on personal, career, and romantic relationships
- How changing the way one lives and perceives adult relationships can change the way one thinks and feels and vice versa

FREEDOM FROM ADDICTION

by David Simon, M.D. and Deepak Chopra, M.D.

Millions of people have embarked on a Twelve-Step Program, whether it's Alcoholics Anonymous, Nicotine Anonymous, or Alateen. However, there are millions of others who are unable or unwilling to accept these programs because of religious overtones or a rigid approach to recovery.

Deepak Chopra and David Simon contend that Twelve-Step methods don't work for everyone because they emphasize personal powerlessness; it's this admission of powerlessness that keeps many people from ever truly healing. In *Freedom from Addiction*, Chopra and Simon offer a new way—a proven method based on the program at the renowned Chopra Center in Carlsbad, California. Combining the best of eastern and western medicine, they teach readers how to cleanse their bodies and minds through nutrition, supplements, and meditations, and they walk readers through their 7-Step Framework:

1. Commit to transformation
2. Commit to ending repeat mistakes
3. Face the harsh reality of the past
4. See the infinite possibilities available in the present moment
5. Envision where you want to be
6. Ask yourself what choices need to be made to actualize vision
7. Create an action plan

WHAT THE BLEEP DO WE KNOW

by William Arntz

What the Bleep Do We Know!? is a book of amazing science that takes the reader through the looking glass of quantum physics into a universe that is more bizarre and alive than ever imagined.

Hundreds of years ago, science and religion split apart; they became antagonists in the great game of explanation and discovery. But science and religion are two sides of the same coin. They both help explain the universe, our place in the great plan and the meaning of our lives. In fact, they can only begin to do that adequately when they work together. With researchers and theoretical scientists leading the way, the book leads us to ask great questions like:

- What is a thought made of? What is reality made of? And most important, how does a thought change the nature of reality?
- A higher power exists, but is it truly out there? Where is the dividing line between out there and in here?
- If thoughts are more than random neural firings, then is consciousness more than an anatomical accident?

HEALING THE SHAME THAT BINDS YOU

by John Bradshaw

A classic book on confronting and ending the toxic shame that prevents you from living a peaceful, joyful life by bestselling author John Bradshaw.

Healing the Shame That Binds You shows how shame is the motivator behind our toxic behaviors. Compulsion, co-dependency, addiction and drive to super achieve is what breaks down the family and destroys personal lives. John Bradshaw helps readers to identify their personal shame, understand the underlying reasons for it, address these root causes and release themselves from the shame that binds them to their past failures. This is the way to leave destructive behaviors behind and move towards a more fulfilling and happy future.

NEVER BE SICK AGAIN

by Raymond Francis, M.Sc. with Kester Cotton

A revolutionary approach to health that demonstrates that almost all disease can be both prevented and reversed.

One day Raymond Francis, a chemist and a graduate of MIT, found himself in a hospital, battling for his life. The diagnosis: acute chemical hepatitis, chronic fatigue, multiple chemical sensitivities, and several autoimmune syndromes, causing him to suffer fatigue, dizziness, impaired memory, heart palpitations, diarrhea, numbness, seizures and numerous other ailments. Knowing death was imminent unless he took action, Francis decided to research solutions for his disease himself.

In *Never Be Sick Again*, Francis presents a revolutionary theory of health and disease: there is only one disease (malfunctioning cells), only two causes of disease (deficiency and toxicity), and six pathways to health and disease (nutrition, toxins, psychological, physical, genetic, and medical). This remarkable book answers the questions: What is health? What is disease? Why do people get sick? How can disease be prevented? How can it be reversed? It will teach readers, in one easy lesson, an entirely new way to look at health and disease — an approach that is easy to understand, yet so powerful that they may, indeed, never have to be sick again.

THE LOST CHILD

by Dave Pelzer

The sequel to Dave Pelzer's bestselling book *A Child Called "It"*

The Lost Boy is the story of a young boy who never had a loving home. His only possessions were the old, torn clothes he carried in a paper bag. The only world he knew was one of isolation and fear. Although others had rescued this boy from his abusive alcoholic mother, his real hurt was just beginning -- he has no place to call home.

The book chronicles how Dave was finally rescued by teachers, social workers and foster parents from one of the most severe cases of child abuse documented in the State of California. It follows Dave's life from the ages of 12 through 18 from his placement in foster care to his enlistment in the U.S. Air Force. It is a story of indomitable spirit, unyielding faith and courage. It is also a story of the professionals who serve children with their selflessness, dedication and love.

The Lost Boy is Pelzer's journey searching desperately for just one thing: the love of a family.

A CHILD CALLED "IT"

by Dave Pelzer

The internationally bestselling book (that was nominated for a Pulitzer Prize) that chronicles the unforgettable account of one of the most severe child abuse cases in California history. It is the story of Dave Pelzer, who was brutally beaten and starved by his emotionally unstable, alcoholic mother: a mother who played tortuous, unpredictable games--games that left him nearly dead. He had to learn how to play his mother's games in order to survive because she no longer considered him a son, but a slave; and no longer a boy, but an "it."

Dave's bed was an old army cot in the basement, and his clothes were torn and raunchy. When his mother allowed him the luxury of food, it was nothing more than spoiled scraps that even the dogs refused to eat. The outside world knew nothing of his living nightmare. He had nothing or no one to turn to, but his dreams kept him alive--dreams of someone taking care of him, loving him and calling him their son.

The book has sold over 6 million copies in the U.S. alone and the last reprint of the book was in November 2019 for 50,000 copies.

BOUNDARIES AND RELATIONSHIPS

by Charles L. Whitfield, M.D.

Bestselling author and psychotherapist Charles Whitfield blends theories and dynamics from several disciplines into practical knowledge and actions that you can use in your relationships right now.

This comprehensive book opens with clear definitions and descriptions of boundaries, a self-assessment survey and a history of our accumulated knowledge. Going deeper, it describes the 10 essential areas of human interaction wherein you can improve your relationships. These include age regression, giving and receiving (projection and projective identification), triangles, core recovery issues, basic dynamics, unfinished business and spirituality. It shows in countless practical ways how knowledge of each of these is most useful in your recovery and everyday life.

BRADSHAW ON: THE FAMILY

by John Bradshaw

The classic, #1 New York Times bestseller is John Bradshaw's seminal work on the dynamics of families that has sold more than one million copies and was the basis of the public television series of the same name.

Bradshaw discusses the cause of emotionally impaired families and how unhealthy rules of behavior are passed down from parents to children. Also, he shows the destructive effect this process has on our society.

Using the latest family research and recovery material, Bradshaw explores the individual in both a family and societal setting. He shows you ways to escape the tyranny of family-reinforced behavior traps -- from addiction and co-dependency to loss of will and denial -- and demonstrates how to make conscious choices that will transform your life and the lives of your loved ones. He helps you heal yourself and then, using what you have learned helps you heal your family.

Finally, Bradshaw extends this idea to our society: by returning yourself and your family to emotional health, you can heal the world in which you live. He helps you re-envision societal conflicts from the perspective of a global family, and shares with you the power of democracy: how the choices you make every day can affect--and improve--your world.

LIFESKILLS FOR ADULT CHILDREN

by **Dr. Janet G. Woititz, Ed.D. and Alan Garner, MA**

From the author of the New York Times bestseller *Adult Children of Alcoholics* – a practical book that affirms and encourages adults by developing skills for living.

Adult children of alcoholics come from profoundly troubled families and never learned the skills they need to navigate life. In this book, Dr. Woititz and Alan Garner provide those missing skills needed to make life work including how to:

- meet people and make friends
- identify your feelings and express them
- set up boundaries and defend them
- work out your problems with others
- handle criticism
- learn to say NO
- end visits, conversations or relationships when they threaten your well-being.

Drawing on real-life examples, the book offers lessons and exercises to help you practice your new skills. Examples are provided to help clarify the lessons and exercises are given to help you practice your new skills.

HEALING THE CHILD WITHIN

by Charles Whitfield, M.D.

In this classic bestseller – over 1 million copies sold in the U.S. -- Dr. Whitfield provides a clear and effective introduction to the basic principles of recovery.

Estimates show that over 50% of the population have experienced childhood trauma. In some cultures, that number is as high as 90%. When trauma occurs in childhood, the core aspect of human consciousness - our true self - goes into hiding and is, typically, replaced with an egotistical false self.

As fresh and useful today as it was more than a decade ago when first published, the book describes the process of wounding that the Child Within (True Self) experiences. It then shows how to differentiate the True Self from the false self. Dr. Whitfield also describes the core issues of recovery and more. He guides us through four steps to rediscovering our true self:

1. Learn to be 'real' by practicing being 'real' with safe others.
2. Identify your healthy human needs.
3. Grieve your ungrieved hurts, traumas and loses.
4. Work through your core recovery, relationship and life issues.
