To Rule All under Heaven

A History of Classical China, from Confucius to the First Emperor

Andrew Seth Meyer, Brooklyn College

- Provides an accessible, engaging, and thorough narrative of a foundational period in Asian history
- Offers historical background that will help readers understand seminal works of Chinese thought, such as the Analects, Dao de jing, and Zhuangzi
- Details crucial new social trends and institutions that began during the period, as well as dramatic narratives of key figures

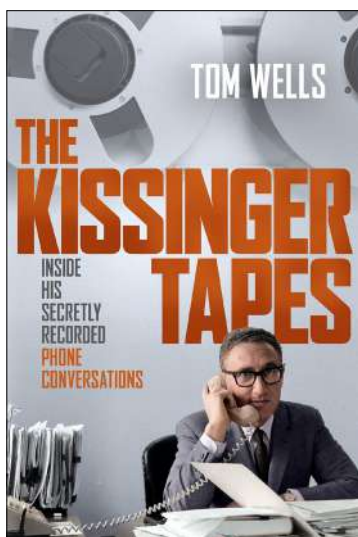

To Rule All Under Heaven offers an illuminating history of the Warring States period (481-221 BCE), a foundational era of Chinese civilization. It begins in the life of Confucius and extends to the reign of the First Emperor, who founded an empire that would become one of the longest-enduring political systems in human history.

The Kissinger Tapes

Inside His Secretly Recorded Phone Conversations

Tom Wells

- The first book of Henry Kissinger's secretly recorded phone transcripts
- Offers a valuable window into who Kissinger was, including his personality, temperament, character, and bureaucratic skills
- Carefully selected and annotated transcripts draw on the author's expertise of the Nixon administration to shed light on the most momentous crises and controversies of the era

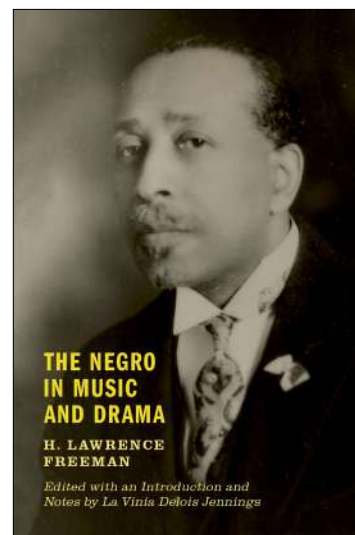

In *The Kissinger Tapes*, Tom Wells has carefully selected, edited, and annotated transcripts of tapes, which chronologically highlight the most momentous crises and controversies of the era. They not only provide many revelations on Kissinger's role in numerous events but also throw his personality and character into sharp relief.

The Negro in Music and Drama

Edited with an Introduction and Notes by **La Vinia Delois Jennings**, University of Tennessee, and **H. Lawrence Freeman**

- Provides groundbreaking historical coverage of pre-1920s black musical and stage culture, specifically the extensive music training and theater network therein
- Explores the rich legacy and history of black opera and libretti
- Offers readers a different dimension of black musical studies, including new first-hand perspectives from working musicians and composers of the era

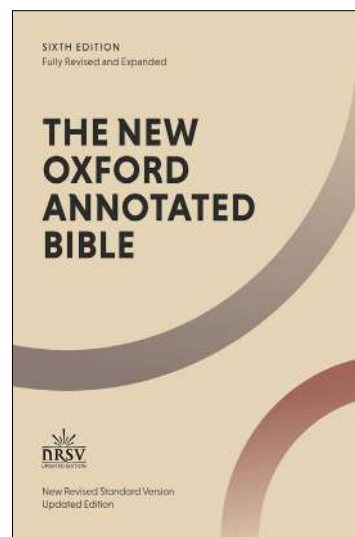

Occupying a seminal position in opera and musical theatre, Harry Lawrence Freeman (1869-1954) stands at the vanguard of black operatic music history. One of the earliest American classical composers to infuse scores with jazz, blues, and spirituals, he inaugurated a black libretto movement that reverberates in musical culture today.

The New Oxford Annotated Bible

New Revised Standard Version with the Apocrypha

Sixth Edition

Editor: **Michael D. Coogan**, the Harvard Museum of the Ancient Near East, **Marc Z. Brettler**, Duke University, **Julia M. O'Brien**, Moravian University, and **Emma J. Wasserman**, Rutgers University

- Introductions and extensive annotations for each biblical book
- Informative essays on essential topics for biblical study
- Maps, timelines, glossary, and an index to the maps.

For over 50 years students, professors, clergy, and general readers have relied on *The New Oxford Annotated Bible* as an unparalleled authority in Study Bibles. This sixth edition of the *Annotated* remains the best way to study and understand the Bible at home or in the classroom.

Truth About Natural Law

History, Theory, Consequences

Brian Z. Tamanaha, Washington University School of Law

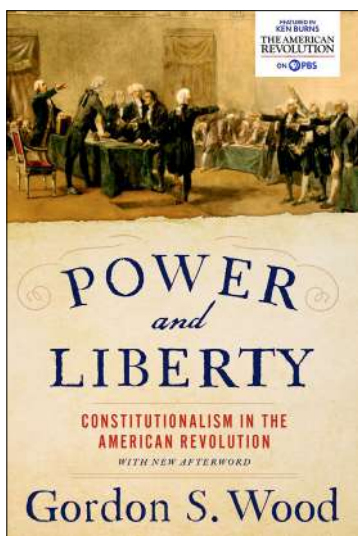

- Offers a comprehensive critical examination of natural law
- Draws on original material to outline the positions of all the most important natural law and natural rights theorists
- Provides information that enables readers to understand and respond to the contemporary revival of natural law in the United States

Once sidelined in legal discourse, natural law is experiencing a resurgence in the United States. *Truth About Natural Law* offers an accessible yet critical introduction to its theory, history, and contemporary relevance.

Power and Liberty

Constitutionalism in the American Revolution

Gordon S. Wood, Brown University

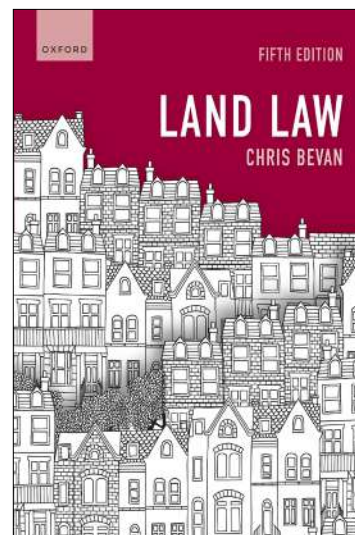

- Explains why we have a separation of powers and the importance of the judiciary
- A distillation of the history of the formation of the key documents in American history by the leading figure in the field
- Wood is a Pulitzer Prize winner and New York Times bestselling author widely acknowledged as one of the most eminent historians of early America

Written by one of early America's most eminent historians, this book masterfully discusses the major issues of constitutionalism that took place in the American Revolution.

Land Law

Fifth Edition

Chris Bevan, National University of Singapore

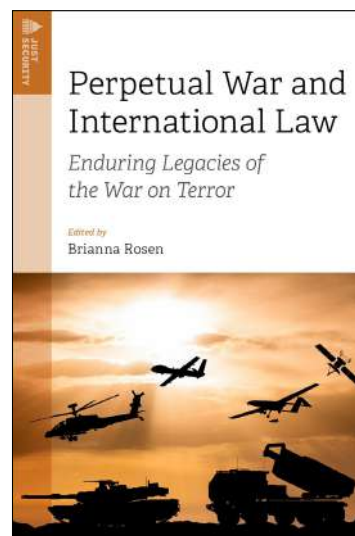

- The author's engaging writing style speaks directly to students and anticipates their questions, enabling him to present a sophisticated analysis of the law that does not overwhelm readers.
- Provides focused yet comprehensive coverage, closely mapped to LLB courses.
- Key cases for each topic are succinctly summarized in a 'facts', 'legal issue', 'judgment' format to provide students with a clear sense of why they are important, and to act as a springboard into primary sources.

Academically rigorous yet welcoming and fully attuned to the needs of the student reader, Chris Bevan's *Land Law* blends traditional and contemporary teaching approaches to guide readers to a confident understanding of the subject.

Perpetual War and International Law

Enduring Legacies of the War on Terror

Edited by **Brianna Rosen**, Just Security

- Interrogates the legal, ethical, and policy foundations of the global war on terror through an interdisciplinary lens
- Challenges the dominance of the war paradigm and advances viable alternatives to the use of force
- Clarifies how contemporary conflicts have moved beyond traditional battlefields into more complex and globalized forms of violence

Perpetual War and International Law explores how the U.S.-led war on terror has transformed international law, human rights, and global security.

Mental Illness

What Everyone Needs to Know®

Nikima M. Glatt, Cultivating Resilience and **Stephen J. Glatt**, State University of New York

- Written collaboratively by a scientist and a clinician, providing a unique perspective from both healthcare and psychiatric backgrounds
- Covers a broad range of mental illnesses, and emphasizes the commonalities that cut across diagnostic boundaries, rather than focusing extensively on any one particular disorder

Mental Illness: What Everyone Needs to Know® reflects the massive efforts being made by scientists and clinicians to better understand and treat mental disorders.

Electromyography in Clinical Practice

A Case-Based Learning Approach

Fourth Edition

Bashar Katirji, Case Western Reserve University

- Offers four detailed introductory chapters that acquaint the discipline and scope of the EDX Examination, including chapters on nerve conduction studies (NCS), needle EMG, specialized EDX testing, and EDX findings in neuromuscular disorders
- Comprises comprehensive presentations of 36 cases that encompass the most common disorders encountered in the EMG laboratory

Electromyography in Clinical Practice, now in its fourth edition, bridges the gap between theory and practice in electrodiagnostic (EDX) and neuromuscular medicine. The book begins with four introductory chapters on nerve conduction studies (NCS), needle EMG, specialized EDX testing, and EDX findings in neuromuscular disorders.

The Science of Repair

How People who Believe in Facts Can Build a Better Future

Gwen Ottinger, Drexel University

- Makes big ideas concrete through the stories of ordinary people engaged in scientific investigations
- Offers nuanced but actionable recommendations for researchers and research policymakers
- Shows how science can become the best version of itself

In *The Science of Repair*, Gwen Ottinger clarifies the role that research plays in combatting injustice and how it can be reparative. Examining the thirty-year history of communities' efforts to measure oil refinery emissions in the air they breathe, the author chronicles compelling ethnographies that have made restorative EJ possible.

Social Injustice and Public Health

Fourth Edition

Edited by **Barry S. Levy**, Tufts University School of Medicine

- The defining text on the sources and health consequences of social injustice and how to reduce these consequences
- Provides a broad, evidence-based review of how social injustice affects specific population groups and specific aspects of public health
- Includes numerous textboxes, tables, and figures to illustrate concepts and their application

The fourth edition of *Social Injustice and Public Health*, a completely updated edition of the classic text, is a comprehensive, evidence-based resource for understanding and addressing the profound impacts of social injustice on public health.

Fundamentals of Developmental Psychobiology

A Brief Account of an Interdisciplinary Science

George F. Michel, University of North Carolina

- Provides examples of well-designed research that combines physiological, biomechanical, and experiential processes for understanding behavioral and psychological development
- Offers a critical evaluation of how biological and psychological information has been poorly applied in development studies
- Gives a thorough introduction to the fundamentals of developmental psychology, appropriate for advanced undergraduate and graduate courses

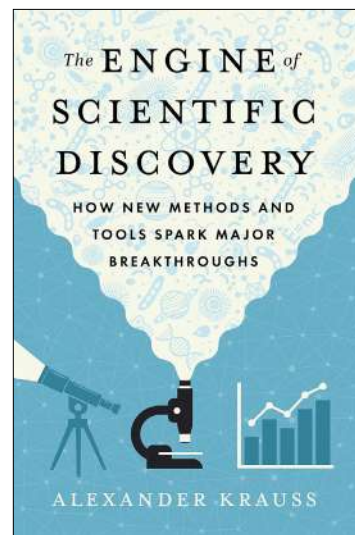

This book provides the reader with a solid understanding of how physiological, biomechanical, and experiential processes are united in the organization of the developmental trajectories that create behavioral and psychological abilities and traits.

The Engine of Scientific Discovery

How New Methods and Tools Spark Major Breakthroughs

Alexander Krauss, London School of Economics

- Provides a comprehensive understanding of scientific discovery including all Nobel Prize winners
- Illustrates how we can speed up the pace of scientific discoveries and innovations
- Demonstrates the importance of technological innovations in 750 discoveries

Many believe that discoveries arise by chance or serendipity. *The Engine of Scientific Discovery* illustrates, for the first time, how we can actively speed up the pace of new breakthroughs by developing better methods and tools of discovery.

Experimentation and Statistics for Biologists

Stephen Land, University of Dundee

- Oxford Biology Primers are the only resource to introduce prospective and current students of undergraduate-level bioscience to a range of topics from this dynamic experimental science, enticing readers to study further
- Its titles directly support two key transitions in the student journey: from school to undergraduate-level study, and from undergraduate to independent researcher
- Also available as an e-book with functionality tools, navigation features, and links that offer extra learning support

Experimentation and Statistics for Biologists empowers students to learn the experimentation and statistics within the framework of biology. Through real case studies, personal stories, and problems that expand on key concepts, students learn how experimental design and statistical analysis shape scientific understanding.

Trees and Forests of the World

Why They Matter to Us

Markku Larjavaara, University of Helsinki

- Takes a unique, interdisciplinary approach, combining the natural and social sciences
- Offers a novel perspective on a vast number of fundamental questions in forestry
- Challenges established ways of thinking in the field

Trees and Forests of the World explores the world's trees and forests, challenging established perspectives on fundamental questions in an effort to better understand the use and management of the world's forests.

Performance Enablement

A New Model for Driving Organizational Performance

Edie Goldberg, E. L. Goldberg & Associates and **Alan Colquitt**, LLC

- Includes case studies that either have not been published before or are not widely known
- Brings together research from multiple disciplines
- Authors are leading practitioners and researchers in the field with a combined 60 years of experience in performance management

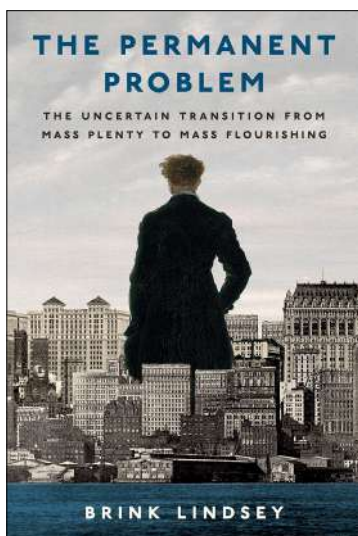

This book is about the process we all love to hate: performance management. *Performance Enablement* argues that we need a new paradigm. Traditional project management was born in a different era, based on a great deal of research that has been debunked over the years.

The Permanent Problem

The Uncertain Transition from Mass Plenty to Mass Flourishing

Brink Lindsey, Niskanen Center

- Offers a novel reinterpretation of the malaise of low growth, deepening class divisions, and dysfunctional politics now afflicting the United States and other rich democracies
- Provides a wide-ranging analysis of the complex relationship between capitalist economic growth and human well-being
- Concludes with highly original proposals for realigning capitalism with the requirements of human flourishing

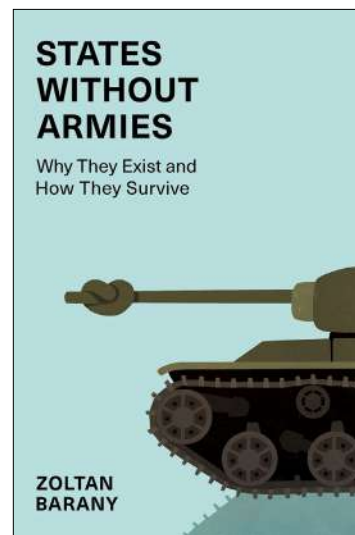

In *The Permanent Problem*, Brink Lindsey examines what John Maynard Keynes termed the “permanent problem”: the idea that despite increasing material plenty, the ultimate human aim of mass flourishing is still a distant goal. Lindsey explores the roots of issues which have led to a current triple crisis, with systems favoring economic elites, declining economic dynamism, and degraded political mechanisms.

States without Armies

Why They Exist and How They Survive

Zoltan Barany, University of Texas

- Shines the light on the possibility of existing without armed forces
- Takes advantage of field research from around the world
- Written in an accessible way, allowing the non-specialist to learn and appreciate the book’s arguments easily

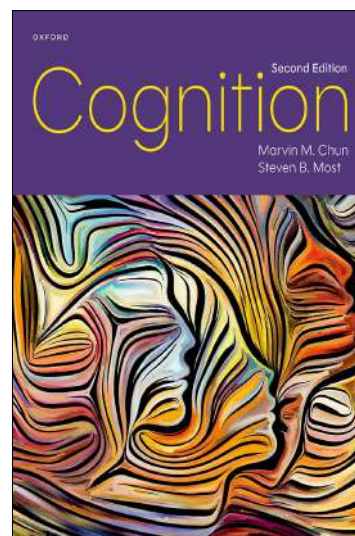

What historical contexts, geographical endowments or socio-economic conditions allow or even encourage a state to go without an army? When does a country decide *not* to have an army, and under what circumstances is the issue even discussed? What kind of security provisions or guarantees, if any, do countries that consider demilitarization seek prior to making such a decision? And what are the disadvantages and benefits of not fielding a standing army? Zoltan Barany addresses all of these questions and more with three core arguments.

Cognition

Second Edition

Marvin M. Chun, Yale University and **Steven B. Most**, University of New South Wales

- Covers a breadth of topics within twelve chapters, ranging from social, clinical, and developmental psychology.
- Presents both classic and contemporary research, emphasizing conceptual understanding and lifelong discovery.
- Breaks down complex material in straightforward and engaging language.

Cognition, Second Edition, presents exciting findings from contemporary cognitive psychology in a way that students can easily grasp. Highlighting everyday-life applications, Cognition invites students to participate in the process of science through activities, videos, and demonstrations.

How to Order

Trade Customers

Trade orders and enquiries from the UK, Europe, the Middle East, Latin America, and the Caribbean should be sent to:

Oxford University Press Distribution Services, Oxford University Press, North Kettering Business Park, Hipwell Road, Kettering, Northamptonshire, NN14 1UA, UK.

Tel: +44 (0) +44 (0)1536 452640

Email (orders): trade.orders.uk@oup.com

Email (enquiries): bookquery.uk@oup.com

Electronic ordering services including EDI and PubEasy are also available for UK and European retail trade customers – for further information see www.oup.com/uk/help/ordering

Trade customers in other areas should send orders and enquires to their local Oxford University Press Branch or Agent. Please see the list at the back of this catalogue.

Further resources for trade customers – including information on trading with OUP, bestseller order forms, access to jacket images, and a catalogue order form – can be found on our bookseller information pages at www.oup.com/uk/booksellers

Libraries

Please order through your usual library supplier, or direct from OUP on +44 (0) 1536 452657*

Individual Customers

Ordering online – customers in many countries can order using credit or debit cards at www.oup.com/uk

Ordering by phone – please call our customer service team on +44 (0) 1536 452640*

Ordering from local retailers – Oxford books and other products are available through most good bookshops. If a title is not available on the shelf your local bookshop should be happy to order it on your behalf.

* Our customer service teams are available from Monday-Friday, 08.30 am – 17.00 pm, UK time. Telephone calls may be recorded for training purposes.

+ Orders on account only – please do not send payment card details by email or fax as this is not a secure method.
